2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Present teaching for M.Sc Biochemistry student's 1st and 2nd year students. The classroom atmosphere is mainly the sole responsibility of the instructor/mentor to create an environment where my students are encouraged and comfortable in expression their ideas, opinions and not be hesitant or tentative about disagreeing with either myself or other students. This engagement is much more than simply being entertaining but first and foremost it is based on experiential learning as the main goal in the classroom. I want people to think outside of their normal boundaries and paradigms they have created or been "held" within. I feel it's my responsibility to convey my passion and excitement about the material in the class, about academia, about life outside the classroom, and to make the material relevant to past and present experiences. I believe in teaching information systems that students "learn by doing". An information system is a much applied subject matter. My classes are filled with "hands-on projects/training" encouraging and participated and presented National and international Seminars/workshops/symposiums, and interact with reputed scientists in world wide. 7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

Green initiatives-Low carbon lifestyles-wild animal conservation In the past five years, about 12,000 tree saplings of about 200 species were planted on the campus, of which 95 survived. Planting of trees is a regular feature of the University and every year sites are identified for plantation. A specially designed 1500 tree-Miawaki plantation and four thousand high-density tree plantations are worth mentioning. Most of the species are having medicinal value, and soil conservation value, and support the native micro and macrofauna. A 10-acre University botanic garden comprising about 800 spices was developed through organic farming methods by using cow dung fertilizer, vermicompost, and rice husk and devoid of any form of chemical fertilizers. The gardens are made plastic free and completely fenced. An estimated 2500 tons of carbon is the current standing biomass of the campus. A diversity of birds, reptiles, and insects are conserved within the campus by providing a diversity of wild plant food through the planting of edible fruit-yielding trees and shrubs. Rainwater Harvesting The university campus covers 10 water harvesting structures that can preserve over 50 lakh liters of rain water. Throughout the campus, small water harvesting structures were developed which are helping in improving the water table. Most of the rainwater is being harvested for recharging the groundwater table on the campus. Check dams were constructed wherever rainwater is draining out. Energy Conservation All the street lights on the campus have been changed to energy-efficient LED. All the teachers, non-teaching staff, and students were sensitized to use electrical power judiciously. A 500-watt solar energy plant was constructed and the generated power is being utilized for the campus. About 100 solar lights are being established shortly in a newly constructed 4-way road. Plastic-free campus initiatives Plastic materials-bottles and cups are almost avoided in all seminars/ conferences and other University functions replaced by paper-made bottles, plates, and containers. Time to time disposal of plastic material is being done in all the official activities. Clean Campus The University campuses are located amidst a serene natural environment and all members of staff along with students are dedicated to maintaining its cleanliness. NSS units are actively participating in cleaning the campus on weekly basis. Dustbins are placed at appropriate places. recycling of organic matter (plant leaves etc.) is done through decomposition pits. Central stores department has an organized drive for the collection of e-Waste. Chemical hazardous waste generated from science department laboratories is disposed-off properly with necessary precautions.
